

LionWeb: Status + Use cases

LangDev 2026
Meinte Boersma, Niko Stotz

Short introduction

Mission

To create an ecosystem of interoperable components for building language-oriented modeling tools on the web.

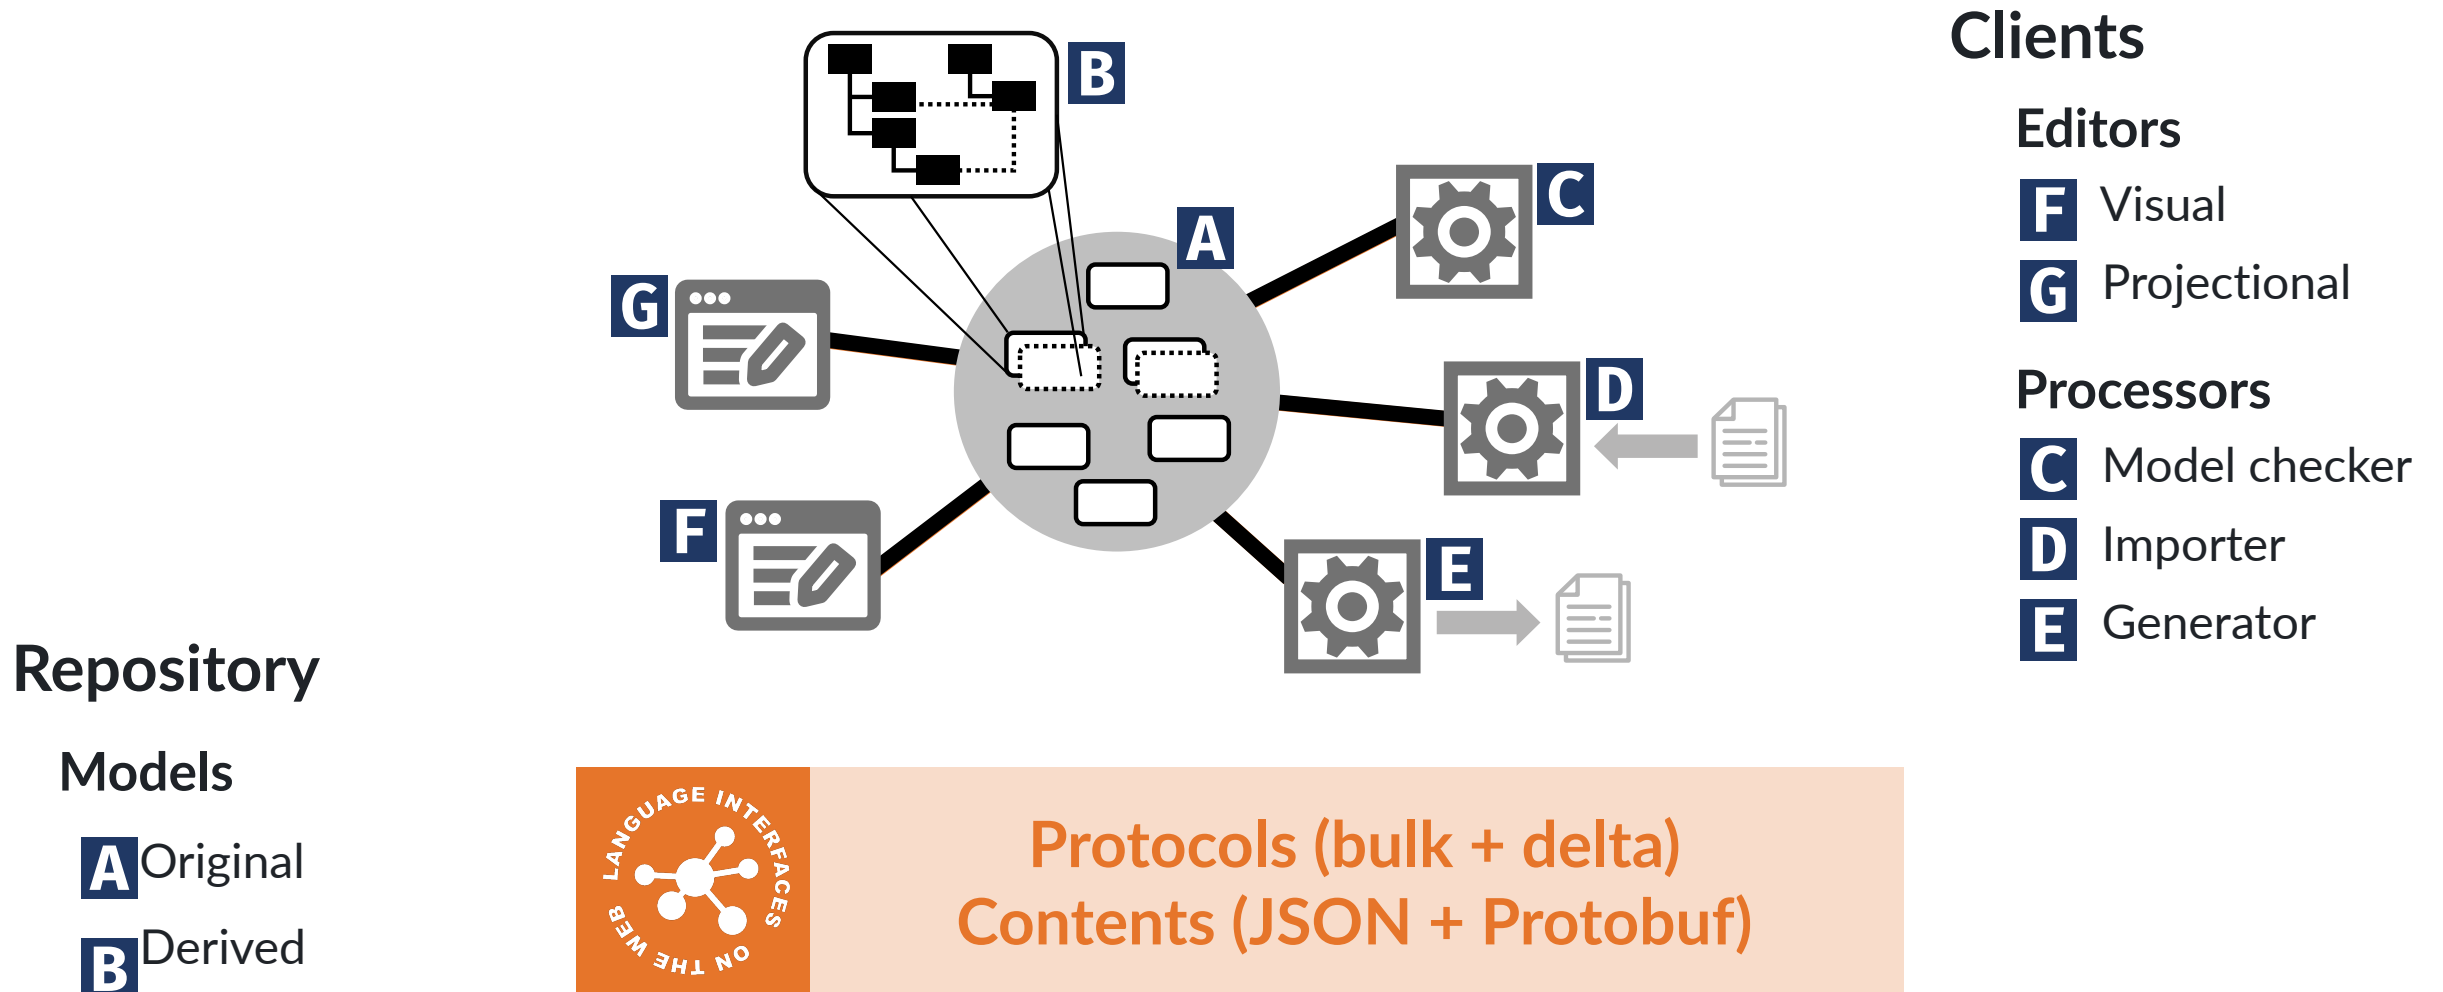

Adopt language engineering

Reduce vendor lock-in

Mix and match components

Foster innovation and incremental improvements

Reference Architecture ([link](#))

Talks

- LangDev 2023 ([slides](#), [video](#))
- LangDev 2024 ([slides](#), [video](#))
- SEN Symposium 2024 ([conference](#), [slides](#))
- MODELS 2024 ([conference](#))
- MBSE 2025 ([conference](#))
- LangDev 2025 ([slides](#))

Other talks about LionWeb @ LangDev 25

Title	Speaker	Affiliation
<u>LionWeb in the Real World: Lessons from a Massive Legacy Migration</u> Thursday 17:15	Alessio Stalla	Strumenta
<u>Reinvigorating TRUMPF laser programming with LionWeb</u> Friday 8:30	Niko Stotz, Johannes Tauber	F1RE, TRUMPF
<u>Implementing MyFPL with LionWeb</u> Friday 11:30	Meinte Boersma	DSL Consultancy

Status

Outreach

New core members

- Sergey Zverlov (F1RE)

Office hours

- Once a month (every second Friday) — successful!

2026.1 version

Released: as of now

Main feature: delta protocol ([link](#))

Delta protocol

Released as part of 2026.1

Is seeing heavy use *in production* with at least one customer

- Spec and implementations turn out to be a very good fit

Changes since last year:

- Command and event names more consistent

- Chunked messages

- Precisely-defined errors

Use cases

Team and Contact

Team

Meinte Boersma	DSL Consultancy	Alex Shatalin	JetBrains (MPS)
Erkan Diken	Belastingdienst	Niko Stotz	F1RE
Norman Koester	itemis (Modelix)	Federico Tomassetti	Strumenta
Sergej Koscejev	Freelancer	Markus Voelter	Freelancer
Sascha Lisson	itemis (Modelix)	Ulyana Tikhonova	F1RE
Pedro Molina	Metadev	Jos Warmer	Freelancer (Freon)
Eugen Schindler	Canon Production Printing	Sergej Zverlov	F1RE
